Conférence au top la semaine dernière à l'**ENSEEIHT** !

Le temps passe ! Douze ans après avoir quitté la meilleure école d'ingé de Toulouse (avis 100 % subjectif 😊), j'ai eu le plaisir de revenir devant des jeunes motivés, et même certains de mes anciens professeurs, pour parler cybersécurité et OSINT.

Merci à **net7** pour l'invitation et à **Photo7** pour les photos !

PS : Florian « Bigflo » Ordonez 🗝 **Olivio (Oli) Ordonez** on représente le **Rose Festival** partout 🙌

Advice: specialized interview simulation with AI

The screenshot displays the homepage of **interviewsby.ai**. At the top left is the logo, and at the top right is a Google login button. A teal badge states "64,405 questions answered!". The main headline reads "Boost your confidence with **AI-generated** interview questions and answers", followed by a "Try now for free →" button.

The interface is divided into two main sections. On the left, under the heading "Turn a **job description** into **interview questions** to practice with:", there are buttons for various roles: "Custom Job Description", "Business Analyst", "Product Manager", "Software Engineer", "Marketing Specialist", "Customer Service Representative" (which is highlighted with a green border), and "Sales Representative". A green arrow points from this section towards the right.

On the right, a large white box simulates an interview question: "Could you recount a time when you faced a challenging interaction with a customer and the strategies you employed to resolve it?". Below the question is a timer showing "0:00 / 2:00" and a red microphone icon. At the bottom of this box are two expandable sections: "Feedback" and "Sample Response", each with a right-pointing arrow.

At the bottom of the page, a teal badge states "Trusted by these job seekers and 11 000+ more".

Prepare your PPP interview – STAR method

Prepare your PPP interview – STAR method

Prepare your PPP interview – STAR method

Situation

When I was a junior in high school, there were several students in my math class who were struggling with some of the more difficult and complex concepts.

Task

With an upcoming national exam, I was asked by my math teacher to start an after school session to assist the other students.

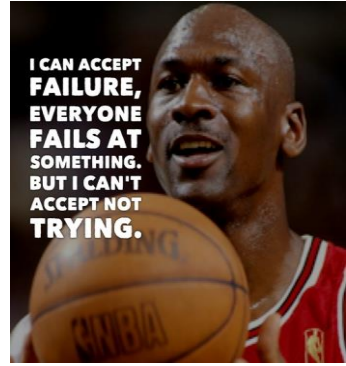

Action

I stayed after school twice a week to review class materials and homework. I created a comprehensive study guide. I demonstrated the best methods for solving difficult problems, explained strategies that worked for me, and developed new problems to help them practice.

Result

Our class average for the national exam was the highest it had been in over ten years, and overall the students I helped were able to develop a better understanding and appreciation for math.

Prepare your PPP interview – how?
